

I do not consent to
Sinclair
Broadcasting
hijacking my
American airwaves to
show a partisan
political
commercial. This is
clearly NOT news as
they claim (if you
are going to steal,
why would you
refrain from lying?)
as claims made in
this program have
already been proven
to be false. It is
also a political
campaign gift: the
biggest one ever.
Maybe that's why
nobody is noticing
it- it's too BIG to
see?

If they do this it
will be a crime- one
that should be
punished. If they
get away with this
then what is going
to happen when
companies run by
liberals or the
christian right or
pornographers decide
to do the same? What
is going to happen
when any big media
corporation decides
to do the same?

This is EXACTLY what
we are talking about
when we denounce
media consolidation!
Textbook case right
here before your
eyes, FCC. Something
had better be done
about this or my
LAST shred of
confidence in your
power will disappear
completely.
